

**SHIV**

**ELECTRICALS**

AN ISO 9001:2015 CERTIFIED COMPANY.

### MCC Panel

Duly wired with ACB / MCCB / SFU / DOL / STAR-DELTA / Starters

Various designs provided like single / double front, fixed type, with marshaling terminations.

- Cubicle type extensible on each side.
- Require Control Voltage facilities with control.
- All Starters are provided with type 2 co-ordination where required.
- Separate busbar chamber for vertical droppers.
- Can be operating by remote on / off.

### PCC Panel

- Main LT Panel, PCC with single, Multiple incomer, bus Couplers with proper interlocking
- Required protection, fault indications, interlocking is provided.
- Various designs are offered in PCC like Top, Middle, Bottom Horizontal bus chamber, panel with aluminium / copper bus bars, top / bottom / front / rear cable termination, combinations of APFC Part with PCC.
- Required facilities like DGI incomer with AMF Functions, Cut-off of nonessential feeders at the event of failure of mains power.
- Panel with provision to connect bus duct at main incomer side.

### APFC Panel

- APFC Panel with microprocessor based relay for controlling power factor within required values.
- RTPFC Panels using Thyristor based capacitor switching.
- Fully ventilation type Panel
- Easy Maintenance and easy to removable capacitor
- Used of capacitive duty contactors
- Always maintain 0.99 PF.
- High-Speed power factor correction.

## PLC Panel

- Our PLC Panel are manufactures stands for programmable logic controller panels and are widely used in industrial process automation.
- We make use of high quality raw material such as stainless steel and mild sheet steel in making these products; it is tested on various parameters before sending it at clients end.
- It used for all kinds of industries like automobiles, engineering, water treatment plant, effluent treatment plants, paper & printing industries, chemical and process plants.
- Some of the area of application of our products include : Processing units, Machine automation, Factory automation, Site supervising, Pumping application. It also communicates with various instruments like temperature indicating controllers, pressure indicating controllers, sensors etc.
- We offer clients superior quality PLC Panels. Their precision designing and construction standards makes them used in various industries for meeting diverse applications like for air conditioning systems, synchronization of power source, pumping control station and others.

## Agriculture Panel

D.O.L. (Direct on Line) Starter, Star-Delta Starter, Auto Transformer Starter and Mobile Operated Starter Control Panel used for Operating of Three Phase Pumps and Electrical Motors in Rural Agro and Industrial Market.

## VFD Panel

We offer an extensive range of VFD Control Panels that is a speed drive that provides a means of driving and adjusting the operating speed of a mechanical load. We offer the VFD Control Panel in variable frequency drive. Fully equipped with all the necessary switch gears, this range of VFD Control Panel finds its wide applications in diverse applications. We also customize our VFD Control Panels as per the demand of the clients.

**APFC With Lighting  
Distribution Panel**

**Busduct**

**Injection Moulding Machine  
Control Panel**

**Lighting Distribution Panel**

**LT with APFC Panel**

**Mixer Machine Control Panel**

**Outdoor Lighting  
Distribution Panel**

**Outdoor Panel**

**Auto Transformer Starter (ATS)**

**Soft Starter Panel**

**Star Delta Starter**

**Power Distribution Panel**

**Power Distribution Panel**

**Spray Dryer Machine  
Control Panel**

**Submersible Pump Testing  
Control Panel**

### KEY STRENGTH

- COMPLETE INDUSTRIAL SOLUTION
- HIGH QUALITY & RELIABILITY
- EXCELLENT WORKMANSHIP
- AESTHETIC & ERGONOMIC DESIGN
- INNOVATIVE CONCEPTS
- SKILL ENGINEERING
- HIGH PRODUCT VALUE
- CUSTOMER SATISFACTION

D.O.L (DIRECT ON LINE) STARTER, STAR-DELTA STARTER, AUTO TRANSFORMER STARTER AND MOBILE OPRETED STARTER CONTROL PANEL USED FOR OPERATING OF THREE PHASE PUMPS AND ELECTRICAL MOTERS IN RURAL AGRO AND INDUSTRIAL MARKET.
